

Journal of Micropalaeontology

Volume 11, Part 2, December 1992

CONTENTS

The Benthonic foraminiferal response to changing substrate in Cenomanian (Cretaceous) rhythms induced by orbitally-forced surface water productivity Paul N. Leary & Malcolm B. Hart	107
A Palynological Zonation for the Paleocene of the North Sea Basin Theo Schröder	113
The taxonomic status of the minute foraminifera <i>Discorbina minutissima</i> Chaster (1892), <i>D. chasteri</i> Heron-Allen & Earland (1913) and related species Jan Pawlowski, Louissette Zaninetti, John Whittaker & John J. Lee	127
<i>Planularia kintradwellensis</i> sp. nov. (Foraminifera), a distinctive biostratigraphical marker species for the Lower Kimmeridgian of the U.K. Francis John Gregory	135
<i>Sullivania</i> a new genus of Palaeogene coccoliths O. Varol	141
A Revision of the Genus <i>Sanyuania</i> Zhao and Han, 1980 (Ostracoda, Crustacea) with the Description of New Species from the Late Cainozoic of China Quanhong Zhao & Robin Whatley	151
Shared versus derived characters in the pore-system of <i>Loxoconcha</i> (Ostracoda, Crustacea) Takahiro Kamiya & Joseph E. Hazel	159
Calcareous Nannofossils in Surface Sediments of the Central and Northern Parts of the South China Sea Cheng Xinrong	167
Late Triassic-Early Jurassic Calcareous Nannofossils of the Queen Charlotte Islands, British Columbia Paul R. Bown	177
New nummulite (Foraminiferida) species from the Eocene of Northern Oman Andrew Racey	189
The relative taxonomic value of morphological characters in the genus <i>Nummulites</i> (Foraminiferida) Andrew Racey	197
Three new species of cytheracean Ostracoda from the Coralline Crag at Orford, Suffolk A.M. Wood, R. Whatley, C.A. Maybury & I.P. Wilkinson	211
The reciprocity between coiling direction and dimorphic reproduction in benthic foraminifera R. Nigam & N. Khare	221
<i>Kirkbyites</i> Johnson, an ostracod genus indicative of pelagic palaeo-environments Gerhard Becker & Horst Blumenstengel	229
A New Allogromiid Genus (Rhizopoda: Foraminiferida) from the Vellar Estuary, Bay of Bengal Andrew J. Gooday & Olivia J. Fernando	233

LETTERS TO THE EDITOR

"Milankovitch cycles and microfossils: principals and practice of palaeocological illustrated by Cenomanian chalk-marl Rhythms" by C.R. Paul – a comment and his Reply David J. Horne & Ian J. Slipper	241
