

Journal of Micropalaeontology

Volume 29, Part 2, December 2010

CONTENTS

- The Dawangou auxiliary GSSP (Xinjiang autonomous region, China) of the base of the Upper Ordovician Series: putting global chitinozoan biostratigraphy to the test**
J. Hennissen, T. R. A. Vandenbroucke, X. Chen, P. Tang & J. Verniers 93
- The occurrence of a new species of *Gomphocythere* (Ostracoda, Limnocytheridae) in the Holocene of SE Turkey: the northernmost record for the genus**
I. Boomer & B. Gearey 115
- Late Pleistocene to Recent ostracod assemblages from the western Black Sea**
I. Boomer, F. Guichard & G. Lericolais 119
- Kataspinifera baumannii*: a new genus and species of deep photic coccolithophores resembling the non-calcifying haptophyte *Chrysochromulina***
H. Andruleit & J. R. Young 135
- Evolutionary classification of the Upper Cretaceous (Turonian–lower Campanian) planktic foraminifera with incipient meridional ornamentation**
M. D. Georgescu 149
- Praecypridea*: a new non-marine ostracod genus from the Jurassic and Early Cretaceous of Europe, North and South America, and Africa**
B. Sames, R. Whatley & M. E. Schudack 163
- Honorary — Professor Malcolm B. Hart**
H. W. Bailey 177
- Honorary — Dr James Riding**
F. Marret 179
- The 2009 recipient of the Brady Medal: Dr Thomas M. Cronin**
D. J. Horne & A. Lord 181

MICROPALAEONTOLOGY NOTEBOOKS

- A rare double skeleton of the silicoflagellate *Corbisema***
K. McCartney, D. M. Harwood & J. Witkowski 185
- Vandenboldina* n. gen., a new name for *Pseudoceratina* van den Bold, 1965**
B. Wilson 187
