

Journal of Micropalaeontology

Volume 34, Part 2, July 2015

CONTENTS

Biostratigraphy and palaeoceanography of the early Turonian-early Maastrichtian planktonic foraminifera of NE Iraq	
R. B. N. Jaff, I. P. Wilkinson, S. Lee, J. Zalasiewicz, F. Lawa & M. Williams	105
The impact of oxidation on spore and pollen chemistry	
P. E. Jardine, W. T. Fraser, B. H. Lomax & W. D. Gosling	139
Heteropolar eunotioid diatoms (Bacillariophyceae) were common in the North American Arctic during the middle Eocene	
P. A. Siver, J. Bishop, A. Lott & A. P. Wolfe	151
Morphological evolution of <i>Stephanodiscus</i> (Bacillariophyta) in Lake Biwa from a 300ka fossil record	
M. Saito-Kato, Y. Tanimura, S. Mori & M. L. Julius	165
New species of Neogene radiolarians from the Southern Ocean – part III	
J. Renaudie & D. B. Lazarus	181
Crustacean microcoprolites from Lower Cretaceous and Oligo-Miocene deposits, Persian Gulf, Iran	
M. Dalvand, A. R. Ashrafzadeh & Z. Ahmadi	211
Micropalaeontology Notebook	
How long after death is DNA preserved <i>in situ</i> in intertidal foraminifera?	
M. Schweizer	217
