1. The genera *Muellerina* Bassiouni, 1965 and *Thaerocythere* Hazel, 1967 from the Neogene of Northwest Europe  
A. M. Wood and R.C. Whatley  
2. A Late Palaeocene-Early Eocene benthic foraminiferal record from Bovlstrup, Denmark, showing a remarkable agglutinated fauna  
G. V. Laursen and S. B. Andersen  
3. New species of Miocene cytheracean Ostracoda from the Pohang Basin, SE Korea  
Min Huh and R. Whatley  
4. *Ozarkodina remscheidensis* plexus conodonts from the upper Ludlow (Silurian) of the Welsh Borderland and Wales  
C. G. Miller and R. J. Aldridge  
5. Aspects of the Cenozoic stratigraphy of the Northern Sulaiman Ranges, Pakistan  
R. W Jones  
6. A new genus of Devonian Ostracoda  
A. N. Orlov  
7. An Early Triassic conodont with periodic growth?  
Zhang Shunxin, R. J. Aldridge and P. C. J. Donoghue  
8. Revision of the Gault foraminifera from the Hollis and Neaverson Collection (1921)  
C. Herrero and J. R. Haynes  
9. The miospore genus *Fragilipollenites* Konyali emend, from the Silesian of Great Britain  
D. McClean  
10. An early record of the genus *Cytheridella* Daday, 1905 (Ostracoda, Limnocytheridae, Timiriaseviinae) from the Upper Cretaceous of Mali, West Africa: palaeobiogeographical and palaeoecological considerations  
J.-P. Colin, Y. Tambareau and V. A. Krasheninnikov

MICROPALAEONTOLOGY NOTEBOOKS

1. The First Appearance Datum (FAD) of *Heterosphaeridium difficile* (Manum & Cookson), dinoflagellata, in clastic deposits offshore Norway  
D. G. Bell and H. Seines  
2. *Prolixosphaeridiopsis spissus* gen. et comb. nov. for the dinoflagellate cyst *Cleistosphaeridium spissum* McIntyre & Brideaux, 1980  
N. M. Hogg and D. A. Bailey
