

# Journal of Micropalaeontology

Volume 19, Part 2, December 2000

## CONTENTS

1. **Ostracods from the Upper Jurassic (Oxfordian-Tithonian) of southern Germany**  
U. Schudack & M. E. Schudack 97
2. ***Ynezidinium*, a new genus within the Gonyaulacaceae (fossil Dinophyceae)**  
J. Lucas-Clark & J. Helenes 113
3. **Diatom fluxes in surface sediments of the Goban Spur continental margin, NE Atlantic Ocean**  
R. Bao, H. de Stigter & T. C. E. van Weering 123
4. **Subdivision of the dinoflagellate cyst Family Suessiaceae and discussion of its evolution**  
R. Bucefalo Palliani & J. B. Riding 133
5. **Systematic review and evolution of the early Cytheruridae (Ostracoda)**  
R. Whatley & I. Boomer 139
6. **'Organic nannofossils': a new type of palynomorph from the Palaeogene of the North Sea**  
P. A. Hochuli 153
7. **Note on the preservational nature of ornamentation in sphaeromorphs assignable to *Tapajonites* Sommer & van Boekel, 1963 (Prasinophyta?)**  
E. Turnau 159
8. **Review of the dinoflagellate cyst *Subtilisphaera? inaffecta* (Drugg, 1978) Bujak & Davies, 1983 and *S.? paeminosa* (Drugg, 1978) Bujak & Davies, 1983**  
B. Courtinat 165

---

## MICROPALAEONTOLOGY NOTEBOOKS

1. ***Kinnekullea comma* (Jones, 1879), a trans-lapetus ostracod locum for the late Ordovician *Dicellograptus anceps* graptolite Biozone**  
M. Williams, J. D. Floyd, C. G. Miller, D. J. Siveter & P. Stone 163

---

Abstracted and/or indexed in *Current Contents*, *Science Citation Index*, *GeoArchive*, *GeoRef*, *Geobase*, *Geological Abstracts* and *CABS (Current Awareness in Biological Sciences)*

Cover Photograph. *Lamprocyclus maritalis* Haeckel, 1887 from surface sediments in the Orca Basin, Gulf of Mexico

Price: £44.00
