

Journal of Micropalaeontology

Volume 22, Part 1, July 2003

CONTENTS

1. **Early to lowermost Middle Triassic Foraminifera from the Locker Shale of Hampton-1 well, Western Australia**
M. Apthorpe 1
2. **Integrated uppermost Campanian–Maastrichtian calcareous nannofossil and foraminiferal biostratigraphic zonation of the northwestern margin of Australia**
R. W. Howe, R. J. Campbell & J. P. Rexilius 29
3. **The Recent foraminifera and facies of the Bass Canyon: a temperate submarine canyon in Gippsland, Australia**
A. J. Smith & S. J. Gallagher 63
4. ***Ankumia van Veen, 1932 (nomen dubium): pathological moult retention in the Cytherellidae (Platycopida: Ostracoda)***
P. J. Jones 85
5. **A new ostracod (Crustacea) species (*Geffenina wangi*) from the Middle Permian of Jebel Gharif (Central Oman)**
S. Crasquin-Soleau 101
6. **Verification of the *Algirosphaera robusta-Sphaerocalyptra quadridentata* (coccolithophores) life-cycle association**
M. V. Triantaphyllou & A. D. Dimiza 107

Abstracted and/or indexed in *Current Contents*, *Science Citation Index*, *GeoArchive*, *GeoRef*, *Geobase*, *Geological Abstracts* and *CABS (Current Awareness in Biological Sciences)*

Cover Photograph. *Ozarkodina confluens* Branson & Mehl, 1933. Silurian, Ludlow Series: Gotland, Sweden; NHM PM X 3179. Lateral view of S₀ element. Specimen collected by Henning Blom and Per Ahlberg, and imaged by Giles Miller using the PalaeoVision System at the Natural History Museum, London.

Price: £50.00
