

Journal of Micropalaeontology

Volume 29, Part 1, May 2010

CONTENTS

1. ***Semicytherura* Wagner: its inner lamella and its close allies** 1
R. Whatley & G. Cusminsky
2. **Description of appendages from three marine trachyleberidid species (Ostracoda, Crustacea) from Japan** 5
G. Tanaka & K. Seto
3. **The Oligocene nannolith *Sphenolithus* evolutionary lineage: morphometrical insights from the palaeo-equatorial Pacific Ocean** 17
T. Blaj, J. Henderiks, J. R. Young & E. Rehnberg
4. **Revision of Late Tithonian charophytes from Lisbon and Sintra-Cascais (Portugal): taxonomy, biostratigraphy and palaeobiogeographical significance** 37
R. Pereira, A. C. Azerêdo & M. Feist
5. **New organic-walled dinoflagellate cysts from the Cenomanian to Maastrichtian of the Trunch borehole, UK** 51
M. A. Pearce
6. **The Ordovician zone index conodont *Amorphognathus ordovicicus* Branson & Mehl, 1933 from its type locality and the evolution of the genus *Amorphognathus* Branson & Mehl, 1933** 73
S. M. Bergström & S. A. Leslie
7. **Talking about a re-evolution: blind alleys in ostracod phylogeny** 81
D. J. Horne
8. **Micropalaeontology reveals the source of building materials for a defensive earthwork (English Civil War?) at Wallingford Castle, Oxfordshire** 87
I. P. Wilkinson, A. Tasker, A. Gouldwell, M. Williams, M. Edgeworth, J. Zalasiewicz & N. Christie

Abstracted and/or indexed in *Current Contents*, *Science Citation Index*, *GeoArchive*, *GeoRef*, *Geobase*, *Geological Abstracts* and *CABS (Current Awareness in Biological Sciences)*
