

# Journal of Micropalaeontology

Volume 34, Part 2, July 2015

## CONTENTS

<b>Biostratigraphy and palaeoceanography of the early Turonian-early Maastrichtian planktonic foraminifera of NE Iraq</b>	
R. B. N. Jaff, I. P. Wilkinson, S. Lee, J. Zalasiewicz, F. Lawa & M. Williams	105
<b>The impact of oxidation on spore and pollen chemistry</b>	
P. E. Jardine, W. T. Fraser, B. H. Lomax & W. D. Gosling	139
<b>Heteropolar eunotioid diatoms (Bacillariophyceae) were common in the North American Arctic during the middle Eocene</b>	
P. A. Siver, J. Bishop, A. Lott & A. P. Wolfe	151
<b>Morphological evolution of <i>Stephanodiscus</i> (Bacillariophyta) in Lake Biwa from a 300ka fossil record</b>	
M. Saito-Kato, Y. Tanimura, S. Mori & M. L. Julius	165
<b>New species of Neogene radiolarians from the Southern Ocean – part III</b>	
J. Renaudie & D. B. Lazarus	181
<b>Crustacean microcoprolites from Lower Cretaceous and Oligo-Miocene deposits, Persian Gulf, Iran</b>	
M. Dalvand, A. R. Ashrafzadeh & Z. Ahmadi	211
<b>Micropalaeontology Notebook</b>	
<b>How long after death is DNA preserved <i>in situ</i> in intertidal foraminifera?</b>	
M. Schweizer	217
