Thematic set: Cyprideis torosa

Cyprideis torosa: a model organism for the Ostracoda?
Patrick De Deckker & Alan Lord

Dedication: Dr Amnon Rosenfeld (1944–2014)
Dietmar Keyser & Avraham Honigstein

On the origins of Cyprideis torosa (Jones, 1850) and a short biography of Professor T. R. Jones
Michael R. Fugley & John E. Whittaker

Historical development of nomenclature and taxonomy of Cyprideis torosa (Ostracoda)
Eugen Karl Kempf

On the modern distribution of the euryhaline species Cyprideis torosa (Jones, 1850) (Crustacea, Ostracoda)
Karel Wouters

Cyprideis (Crustacea, Ostracoda) in Australia
Iva Schön, Stuart Holme & Koen Martens

Trace-element and stable-isotope composition of the Cyprideis torosa (Crustacea, Ostracoda) shell
Jonathan A. Holmes & Patrick De Deckker

Combining the Mg/Ca of the ostracod Cyprideis torosa with its ontogenic development for reconstructing a 28 kyr temperature record for Lake Banyoles (NE Spain)
G. Wansard, P. De Deckker & R. Julià

Salinity-dependent sieve pore variability in Cyprideis torosa: an experiment
Peter Frenzel, Judith Ewald & Anna Pint

Salinity-driven size variability in Cyprideis torosa (Ostracoda, Crustacea)
Ian Boomer, Peter Frenzel & Martin Feike

Is the occurrence of a sigmoidal ventral border in Cyprideis torosa (Jones) valves linked to salinity?
A morphometrical analysis approach
F. Grossi, S. De Prato & E. Ghizzoni

The Neogene Mediterranean origin of Cyprideis torosa (Jones, 1850)
Elsa Ghizzoni, Julio Rodriguez-Lazaro & Radovan Pipik

Cyprideis torosa (Jones, 1850) in mainland Portugal: what do we know?
M. C. Cabral, F. Fatela, V. Lopes, M. C. Freitas & C. Andrade

Ostracod fauna associated with Cyprideis torosa – an overview
Anna Pint & Peter Frenzel

New occurrences of Cyprideis torosa (Crustacea, Ostracoda) in Germany
Burkhard Scharf, Michael Herzg & Anna Pint

Cyprideis torosa (Jones, 1850) in its type area and stratigraphical context: potential for mapping the freshwater/estuarine boundaries of the Thames-Medway river system in the MIS 9 and MIS 11 interglacials
David J. Horne, Ginny Benardout & John E. Whittaker
