CONTENTS

1. Foraminiferal biostratigraphy of the Woo Dale borehole and the age of the Dinantian-Basement unconformity
   A. Strank 1
2. Age determinations of Neogene sediments from the English Channel and Western Approaches
   D. G. Jenkins & E. Martini 5
3. Nematosphaeropsis downii sp. nov.: a new Miocene dinoflagellate cyst from the Bay of Biscay
   S. Brown 7
4. Unusually large Late Campanian-Early Maastrichtian foraminifera from the Southern North Sea Basin
   K. C. Ball 11
5. Mesozoic micropalaeontology of exploration well Elf 55/30-1 from the Fastnet Basin, offshore southwest Ireland
   N. Ainsworth & N. Horton 19
6. Two unusual new species of the ostracod genus Cytheropteron from the Late Cainozoic of the deep sea
   R. Whatley, M. Ayress & S. Downing 31
7. Danian dinoflagellate zonation, the C-T boundary and the stratigraphical position of the Fish Clay in southern Scandinavia
   S. U. Hultberg 37
8. Rediscovered types of Xestoleberis labiata Brady & Robertson, 1974 (Ostracoda)
   J. Athersuch & D. J. Horne 49
9. Ultrastructure of ostracods as a stratigraphical tool for the subdivision of the Senonian sequence in Israel
   A. Honigstein 53
10. Neospathodus (Conodonta) from the Anisian-Ladinian boundary at Makhtesh Ramon, Negev, southern Israel
    C. Benjamini & A. Chepstow-Lusty 67
11. The electron microprobe analysis of agglutinating foraminifera; results from a Rotaliammina test from the S.W. Pacific
    J. C. Bevan 77
12. A novel method of dark field illumination for a steromicroscope and its application to a study of the pseudopodia of
    Reophax moniliformis (Foraminifera)
    R. Knight 83
13. A comparative study of collections from the S.W. Pacific (Saipan to Tonga), with the descriptions of Gambiella caudata
    (Brady, 1890) and a new species of Pterobairdia (Ostracoda)
    K. McKenzie 91
14. Cluthia miocenica sp. nov. (Ostracoda) from the Middle Miocene of southern Poland
    J. Szczechura 109
