Journal of Micropalaeontology

Volume 6, Part 1, May 1987

CONTENTS

1. Ostracod faunas from the Halul, Laffan and Nahr Umr Formations of offshore Abu Dhabi, U.A.E.
   J. Athersuch
   1

2. Aptian lithostratigraphy and biostratigraphy (foraminifera) of block 49 in the southern North Sea
   S. Crittenden
   11

3. Stratigraphic ranges of selected miospores in coal seams of Upper Coal Measures age in Oxfordshire and S.E. Warwickshire
   A. H. V. Smith
   21

4. On Wondersella athersuchi, a new stratigraphically significant hedbergellid foraminiferan from the Cretaceous Shuaiba Formation in the Middle East
   F. T. Banner and A. R. E. Strank
   39

5. Distribution of modern coccolithophore assemblages in the southwest Indian Ocean off southern Africa
   P. J. J. Friedinger and A. Winter
   49

6. Some aspects of the biology of the North American ostracod Sarsiella zostericola Cushman in the vicinity of a British power station
   R. N. Bamber
   57

7. On the genotype of Cribrospirolina Haman, 1972 (Foraminiferida)
   S. K. Al-Abdul Razzaq & S. N. Bhalla
   63

8. Cabochonicus, a new genus for species of gemmate megaspores previously referred to Verrutiletes
   D. J. Batten and D. J. P. Ferguson
   65

9. The British Silurian ostracod genus Octonaria Jones, 1887: its revision and phylogeny
   L. E. Petersen and R. F. Lundin
   77

10. Calcareous nannoplankton biozonation of the Thanetian stage (Palaeocene) in the type area
    W. Siesser, D. J. Ward and A. R. Lord
    85

11. Gruendelella, a new Carboniferous ostracod genus from the Namurian of the Cantabrian Mountains (N. Spain)
    L. C. Sanchez de Posada
    103

12. Eripleura, a new genus of ostracod from the Upper Jurassic of England and its relationship with Procytheropteron Ljubimova
    I. P. Wilkinson
    111
